SAExploration Announces \$90 Million of New Project Awards

HOUSTON, Sept. 15, 2015 (GLOBE NEWSWIRE) -- **SAExploration Holdings, Inc.** (NASDAQ:SAEX) (OTCBB:SAEXW) today announced three new project awards for onshore logistical support and seismic data acquisition services in North and South America, collectively valued at approximately \$90 million. The largest of the three projects is a multi-year program, which SAE expects to begin during the fourth quarter of 2015 and complete in the first half of 2016. The other two projects are scheduled to be performed during the remainder of 2015.

Two of the projects will take place in the dense jungle rainforest of South America, with the third project set to be executed in Alaska. All three projects will cover different, yet equally challenging terrain and require specialized knowledge of the surrounding environments. SAE will provide a full suite of in-house logistical services in advance of and throughout the life of these projects, which will utilize currently available equipment and personnel. No new capital expenditures are required to execute these projects.

Brian Beatty, President and CEO of SAE, commented, "We are very pleased to receive these project awards, particularly in South America, which has been a comparatively difficult market for new business development during the last few quarters. While some areas within the region continue to offer limited visibility, we are excited to see overall activity improve. We view these new project awards as reinforcement of the strong fundamentals underlying our core markets and further validation of our competitive advantages and strategic differentiation."

About SAExploration Holdings, Inc.

SAE is an internationally-focused oilfield services company offering a full range of vertically-integrated seismic data acquisition and logistical support services in remote and complex environments throughout Alaska, Canada, South America, Southeast Asia and Africa. In addition to the acquisition of 2D, 3D, time-lapse 4D and multi-component seismic data on land, in transition zones and offshore in depths reaching 3,000 meters, SAE offers a full suite of logistical support and in-field processing services, such as program design, planning and permitting, camp services and infrastructure, surveying, drilling, environmental assessment and reclamation and community relations. SAE operates crews around the world, performing major projects for its blue-chip customer base, which includes major integrated oil companies, national oil companies and large independent oil and gas exploration companies. Operations are supported through a multi-national presence in Houston, Alaska, Canada, Peru, Colombia, Bolivia, Brazil, New Zealand and Malaysia. Forward Looking Statements

This press release contains certain "forward-looking statements" within the meaning of the federal securities laws. These statements can be identified by the use of words or phrases such as "believes," "estimates," "expects," "intends," "anticipates," "projects," "plans to," "will," "should" and variations of these words or similar words. These forward-looking statements may include statements regarding SAE's financial condition, results of operations and business and SAE's expectations or beliefs concerning future periods. These statements are subject to risks and uncertainties which may cause actual results to differ materially from those stated in this release. These risks and uncertainties include fluctuations in the levels of exploration and development activity in the oil and gas industry, intense industry competition, a limited number of customers, the need to manage rapid growth, delays, reductions or cancellations of service contracts, operational disruptions due to seasonality, weather and other external factors, crew productivity, the availability of capital resources, high levels of indebtedness, substantial international business exposing SAE to currency fluctuations and global factors including economic, political and military uncertainties, the need to comply with diverse and complex laws and regulations, and other risks incorporated by reference to SAE's filings with the Securities and Exchange Commission. Certain risks and uncertainties related to SAE's business are or will be described in greater detail in SAE's filings with the Securities and Exchange Commission. The information set forth herein should be read in light of such risks. Except as required by applicable law, SAE is not under any obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements, whether as a result of new information, future events, changes in assumptions or otherwise.
