SAExploration Announces New \$35 Million Deep Water Ocean-Bottom Marine Project Award

HOUSTON, Nov. 08, 2016 (GLOBE NEWSWIRE) -- **SAExploration Holdings, Inc.** (NASDAQ:SAEX), or SAE, today announced a new project award for seismic data acquisition services valued at approximately \$35 million.

The award is for a 3D deep water ocean-bottom marine project in West Africa. SAE expects to initiate this project in late 2016 and complete it in the first quarter of 2017. This project will be performed using an advanced remotely-operated-vehicle deployment method in conjunction with ocean-bottom nodal seismic recording technology equipped to successfully operate in water depths ranging from zero to 3,000 meters deep.

SAE will utilize its currently available equipment and other external resources to execute the project with no new capital expenditures required.

About SAExploration Holdings, Inc.

SAE is an internationally-focused oilfield services company offering a full range of vertically-integrated seismic data acquisition and logistical support services in remote and complex environments throughout Alaska, Canada, South America and Southeast Asia. In addition to the acquisition of 2D, 3D, time-lapse 4D and multi-component seismic data on land, in transition zones and offshore in depths reaching 3,000 meters, SAE offers a full suite of logistical support and in-field data processing services, such as program design, planning and permitting, camp services and infrastructure, surveying, drilling, environmental assessment and reclamation and community relations. SAE operates crews around the world, performing major projects for its blue-chip customer base, which includes major integrated oil companies, national oil companies and large independent oil and gas exploration companies. Operations are supported through a multi-national presence in Houston, Alaska, Canada, Peru, Colombia, Bolivia, Brazil, New Zealand and Malaysia.
